

Aeromod - Wastewater treatment systems, biological nutrient removal (Sequox), ClarAto clarifier, belt presses

Amwell - Bar screens, clarifiers, scum and headworks equipment

Aquaturbo - Surface aerators, mechanical mixers, decanters, floatables control

BCR Solids Solutions - Transforming biosolids and organic waste management using patented treatment solutions

Continental Blower - Multistage centrifugal blowers

DryCake - Decanter Centrifuges, Separator Centrifuges, Belt Presses, Screw Presses, Draidac Bagging System, Scudrain Drum Thickener and Polymer Systems

Ebara Pumps - Water and wastewater pumps and stations. Submersibles, dry pit submersibles, self prime, grinder, end suction centrifugal, multistage, dewatering, sump, stainless, and axial flow pumps

Entex Technologies - MBBR Technologies including ebitat, WavTex, BioTex MBBR media and MBBR, IFAS, SFF and fixed media treatment processes

Excelsior Blower- Engineered PD blower packages Gardner Denver and Sutorbilt Blowers

Flomotion Systems- Peristaltic pumps, flow, level, and chemical metering equipment.

Grande Inc. - Combined Sewer Overflow (CSO) Abatement, Stormwater Management, Tank flushing Systems, Overflow Control and Screening, Flow Regulation, Flood Protection and Floatables Retention

IPEX- Vortex force aerator for sewer Odor & Corrosion Control

Fluidyne Corp. - ISAM SBR, jet aeration, Hydro- Grit, tertiary filtration

Kusters Zima- Headworks screens and Grit systems, clarification and biological Systems, thickening and biosolids.

ITP - Package MBR Systems, prescreens and Clarifier algae control systems

Keystone Conveyor- Belt and screw conveyors, lime feed / mix systems

Landia - Chopper pumps, submersible mixers, digester mix systems & aeration systems

Lobepro - Rotary lobe pumps

MFC -Fixed Plate Cloth Media Filters

Nuvonic -The only global innovator offering UV-based solutions for water, surface and air disinfection on a worldwide scale.

PCM - Progressive Cavity Pumps

Polydyne - Dry and emulsion polymers, Polymer feed systems.

Prime Solutions- Rotary Press dewatering systems

Syneco Systems- Odor Control Systems for Wastewater, from manhole inserts to large Systems. Inflow inserts

Stamford Scientific- Fine/coarse bubble diffusers, membrane diffusers, ceramic retrofits, fixed or retrievable grids, pod systems, MBBRs

Tenco Hydro - Dissolved air flotation, lamella clarifiers, grease/ concentrators, oil/ water separators

UET Mixers Inc. - Providing mixing solutions to help you process fluids faster, more profitably and more reliably.

Ultraflote - Aluminum geodesic domes and heavy-duty flat covers.

Wigen- Drinking water treatment(NF/ MF/ UF/ RO) pressure filters, ion exchange equipment, arsenic removal systems

WTP- Headworks screenings and grit removal
